How to buy a solar inverter without breaking the bank?

If you want to buy it without breaking the bank, take advantage of the best prices, guarantees and delivery flexibility offered by the number 1 in the sale of photovoltaic products. These photovoltaic inverters transform the direct current of your solar panels into alternating current.

What type of inverter do solar panels use?

On-grid inverter: Most small-scale solar panel installation systems use an on-grid inverter, also known as a 'centralised' inverter. These solution are the most commonly installed inverters. The DC (direct current) electricity generated by the solar panels is plugged into this inverter.

Who makes Solax solar inverters?

Solax is a subsidiary of the very large Suntellite Group in China, which manufactures solar cells, panels and inverters with a strong emphasis on research and development. Perhaps this is why it has been able to produce high quality inverters with advanced features compared to many other Chinese manufacturers.

How do I order a solar inverter?

You can choose Paypal, credit card, Klarna, Fintecture or bank transfer. Once your order has been validated, our logistics team will prepare your order. Upon shipment, you will receive a tracking number for your solar inverters. Please check your solar inverter on receipt to ensure the quality of our service. Start installing your solar inverter.
