

50kW Sucre off-grid solar container used in shopping mall

Overview

What is a 50kw Solar System?

In rural areas where access to the main power grid is limited, Maxbo's 50kW solar systems serve as reliable energy sources, providing the necessary power for residential homes, schools, health clinics, and community centers. These systems bring modern amenities to off-grid locations, enhancing quality of life and supporting community development.

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.

Can a 50kw Solar System be used for industrial applications?

Maxbo's 50kW solar system is also adaptable for industrial applications, where high-powered equipment and continuous operation are essential. Our systems are engineered with robust components, reinforced solar panels, and heavy-duty inverters capable of handling the demands of industrial machinery.

Why should you choose a 50kw Solar System?

With a 50kW solar power system, users can achieve substantial cost savings by generating their own electricity. By reducing reliance on grid-based power, these systems cut utility bills and protect users from rising energy prices. Maxbo's 50kW solar systems contribute to a cleaner environment by reducing greenhouse gas emissions.
