

A communications company in San Salvador that develops 5G small base stations

Overview

Who makes 5G radio & core systems?

Major suppliers of 5G radio and core systems included Altostar, Cisco Systems, Datang Telecom/Fiberhome, Ericsson, Huawei, Nokia, Qualcomm, Samsung, and ZTE. Huawei was estimated to hold about 70 percent of global 5G base stations by 2023.

What is Datang Telecom Group?

- Datang Telecom Group, also known as CATT (i.e. China Academy of Telecommunications Technology) is a key contributor to 5G technology standardization.
- The company offers complete 5G Radio System which is used to build 5G RAN (Radio Access Network) to make 5G frequency waves available for 5G users.

What is a 5G base station?

It consists of antennas, transceivers, and digital processing units that transmit and receive radio signals between user devices and the network. 5G base stations operate on various frequency bands, including sub-6 GHz and mmWave, to deliver ultra-low latency, high data throughput, and enhanced capacity.

Does El Salvador have a telecommunication sector?

El Salvador's telecommunication sector has operated under a privatized legal and institutional framework since 1997, encouraging competition in most areas and allowing foreign investment.
