Solar batteries help you get the most out of your solar power setup by storing extra energy generated during the day. This stored power can then be used at night, during cloudy weather, or whenever there's a grid outage — ensuring uninterrupted electricity for your home or business. At Egypt.

Lead-acid batteries are a long-standing and cost-effective technology in the solar industry. They are available in two primary forms: Flooded lead-acid, which are the most affordable but require regular maintenance (like checking water levels), and Sealed lead-acid (GEL and AGM), which are.
