

Bifacial double-glass module specifications

Overview

What are the advantages of a natural symmetrical bifacial structure?

to ensure higher cell efficiency and higher module power. Natural symmetrical bifacial structure bringing more energy yield from the backside. Integrated coating frames ensuring modules passing the IEC salt-mist test level 8. Lower BOS cost, lower LCOE. Higher power generation under working conditions, thanks to passivating contact cell technology.

What are bifacial Q Antum solar cells?

Bifacial Q.ANTUM solar cells with zero gap cell layout make efficient use of light shining on the module rear-side for radically improved LCOE.

How long does a double glass module last?

Double glass module design enables extended lifetime with 12-year product warranty and improved 30-year performance warranty². See data sheet on rear for further information. At least 98 % of nominal power during first year.

Bifacial double-glass module specifications

Q.PEAK DUO XL-G10.3 / BFG

Q.ANTUM DUO Z combines cutting edge cell separation and innovative wiring with Q.ANTUM Technology for higher yield per surface area, lower BOS costs, higher power classes, and an ...

Mono 565W MBB Bifacial Mono PERC Half-cell Double ...

Specifications subject to technical changes and tests. JA Solar reserves the right of final interpretation. Remark: Electrical data in this catalog do not refer to a single module and they ...

Bifacial Solar Modules , Maysun Solar

Single-glass bifacial modules are lightweight and suitable for rooftop installations, while double-glass bifacial modules provide greater resistance to weather conditions, making them ideal for ...

Evo 6N N-type HJT Bifacial Double Glass 132 Half Cells 700 ...

Up to 95% Bifaciality Natrual symmetrical bifacial structure bringing more energy yield from the backside.

DAS-DH108NA-EN-440(Black Pro)

Excellent Appearance and Performance Bifacial solar cell, symmetrical design, low risk of micro-crack

390W Bifacial Mono PERC Mono Double Glass Module

Introduction JA bifacial modules are assembled by high-performance PERCIUM encapsulated by glass-glass panels, are capable of converting energy from lights on front and diffuse light, as ...

BIFACIAL SERIES - GLASS-TO-GLASS PHOTOVOLTAIC ...

This breakthrough PV product is made up of 60 bifacial mono-crystalline silicon cells with up to 20.5% module efficiency on each side. The total rated power output of the panel will range ...

LONGi glass-glass bifacial modules

Discover bifacial glass-glass modules from LONGi - for maximum energy yields, extreme resilience and long-lasting performance in demanding PV projects.

JKM560-580N-72HL4-BDV-F6-EN

Better light trapping and current collection to improve module power output and reliability. Excellent Anti-PID performance guarantee via optimized mass-production process and ...

Bi-facial Double Glass

Among our product portfolio is the High-Power Density low-glare module (GMD series), 3-in-1 Building-Integrated solar roof materials (BiPV series), Bi-Facial double glass Fire Test Class A ...
