Elite 300 redefines the portability of 3kWh power stations for homes & the outdoors SYDNEY, Dec. 16, 2025 /PRNewswire/ — BLUETTI, a technology pioneer in clean energy, is releasing its Elite 300 portable power station in Australia on December 15, bringing the most compact and cost-efficient 3kWh.

Discover our portable power stations for efficient energy anytime and anywhere. Looking for a reliable portable power solution?

APS Power's portable power stations provide a convenient, dependable energy source wherever you need it. Compact and easy to transport, these stations are perfect for.

Description AMPTRON® Lithium Iron Phosphate (LiFePO4) battery chargers are state-of-the-art battery chargers with a charging profile specifically designed to charge and maintain Lithium Iron Phosphate (LiFePO4) batteries, and can safely achieve a 100% State of Charge. The 24V 20A model charger.

BLUETTI, a technology pioneer in clean energy, is launching its new Elite 300 portable power station in Australia on December 15. As the most compact and cost-efficient 3kWh power station available, the Elite 300 packs serious power into a manageable package, ideal for Australian homes as a home.

Australia's lithium-ion mobile power station market (1kWh-10kWh capacity) is growing rapidly due to increasing demand for portable power in outdoor activities, emergency backup, and renewable energy applications. Key players such as EcoFlow, Bluetti, and Jackery offer products priced between AUD.

The company has officially launched the Anker SOLIX C300 and C300 DC in Australia, targeting adventurers who need reliable power without the bulk of traditional generators. Both C300 models pack serious capabilities into surprisingly compact forms. With 288Wh capacity and 300W output, these units.
