[Material Safety] Considering that outdoor lanterns need to be more durable, we use selected polyethylene plastic to replace the glass surface. It is not easy to damage and maintain its beauty while ensuring that it has sufficient light transmission effect, allowing the light to emit a soft and.

We have developed a large series hot selling solar garden landscape lighting products, including solar pathway lights, solar lawn lights, solar wall lights, solar pillar lights, solar fence post lights, solar yard light, etc. We use high conversion rate mono solar panel and brand new large capacity.

The Feit Electric solar panel light is a practical and eco-friendly solution for outdoor lighting. Its solar function harnesses sunlight during the day to deliver powerful and reliable performance at night, without the need for wiring or additional electricity consumption. Its weather-resistant.

Can solar lights be used for outdoor wedding lighting?

Do solar lights have any impact on nocturnal wildlife?

Are solar lights suitable for hiking trails?
