What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale.

East Timor's government relies heavily on the Timor-Leste eProcurement Portal, which aims for transparency and efficiency. Through it, you'll find over 68 active tenders and contracts. These range from large infrastructure projects to basic supplies and services, all accessible for open bidding.
