

# Ecuador 5g base station installation electricity price

## Overview

---

How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

What is the price of electricity in Ecuador?

Ecuador, June 2022: The price of electricity is 0.096 U.S. Dollar per kWh for households and 0.085 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

How much does electricity cost in Guayaquil?

It is produced from the Amistad field in the Gulf of Guayaquil. The prices of electricity are US\$10.4c/kWh for households and US\$7.8 for industrial customers (2022). These prices have remained roughly stable since 2020. They are much lower than in neighbouring countries (around 45% cheaper than in Colombia).

How much electricity does Ecuador need?

Ecuador had a peak demand of 5,110 MW in May 2025, and according to CENACE, electricity demand grows by 360 MW every year. Ecuador's energy shortage could result in a recurrence of power outages, particularly in the dry season of September through December.
