

# Financing for Nordic Solar Container Hybrid Project

## Overview

---

The Greenvolt Group, through Greenvolt Power, has signed a €35 million project finance agreement with Ringkjøbing Landbobank to finance the construction and operation of a large-scale hybrid project in Høegholm, Denmark, combining solar photovoltaic generation and battery energy.

The Greenvolt Group, through Greenvolt Power, has signed a €35 million project finance agreement with Ringkjøbing Landbobank to finance the construction and operation of a large-scale hybrid project in Høegholm, Denmark, combining solar photovoltaic generation and battery energy.

Greenvolt has signed a €35 million project finance agreement with Ringkjøbing Landbobank to fund the construction and operation of a hybrid project in Denmark. The project combines solar photovoltaic technology (97.36 MW) with a battery energy storage system (BESS) of an estimated 55–60 MW.

Home » Energy » Battery Storage » Greenvolt Secures €35 Million Financing for Hybrid Solar and Storage Project in Denmark Greenvolt Group, through its subsidiary Greenvolt Power, has signed a €35 million project finance agreement with Ringkjøbing Landbobank to fund the construction and operation of.

Greenvolt Group, a clean energy project developer, through Greenvolt Power, has signed a €35 million (~\$41 million) project finance agreement with Ringkjøbing Landbobank. The funding will be used to construct and operate a large-scale hybrid project in Høegholm, Denmark, combining solar and battery.

Danish energy company Nordic Solar has signed a credit agreement for its inaugural battery storage project, located in Borup near Hillerød, just north of Copenhagen. The agreement provides funding for construction, which will transition to long-term project financing once the facility is connected.

Denmark's "Energy Island" initiative aims to connect 3 GW of offshore wind and solar with large-scale storage by 2030. Sweden's 2023 subsidy program allocated €220 million for solar-storage integration. Denmark's "Energy Island" initiative aims to connect 3 GW of offshore wind and solar with.

Nordic Solar A/S said today that it has obtained a double-digit million loan to

support the implementation of its first battery energy storage system (BESS) project, a 5-MW/10-MWh facility, in Denmark. The credit agreement was signed with Ringkjøbing Landbobank and covers construction financing.
