

Flywheel Solar Water Pump

✓ TELECOM CABINET

✓ BRAND NEW ORIGINAL

✓ HIGH-EFFICIENCY

Overview

What is a solar powered water pump?

A solar powered water pump is an eco-friendly, off-grid solution that uses solar energy to move water from wells, rivers, ponds, or tanks—without needing electricity or fuel. Perfect for farms, homes, and remote areas, these pumps are powered by photovoltaic panels and come in both surface and submersible options.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

How does a solar water pump work?

This solar-powered pump operates without batteries or electricity, relying solely on sunlight. With a maximum flow rate of 180 liters per hour and a lifting height of 120 centimeters, it guarantees a lively water display. Installation is a breeze—just place it in water with the solar panel exposed to sunlight.

Is a solar water pump a good choice?

In full sun, the solar panel powers the system effortlessly, making it a great low-maintenance solution for keeping plants healthy. It's a great option for gardeners looking for an eco-friendly, hands-off watering system, especially in sunny climates. Get the Jiyang solar-powered water pump at Amazon.
