

# Freetown New Energy solar Power Generation Glass 550w

## Overview

---

Will New York achieve a 6 GW solar goal?

New York achieved the 6 GW solar goal in the fall of 2024, putting the state on the path to other nation-leading climate targets, including 10 GW of solar by 2030. New York is home to more than 800 community solar projects and leads the U.S. in community solar capacity.

What is New York's solar energy program?

This program is managed by the New York State Energy Research and Development Authority (NYSERDA) through NY-Sun and facilitates the accessibility of solar energy. The program is a clear demonstration of New York's commitment to meeting its renewable energy goals.

Will New York achieve 6 GW of solar energy by 2025?

The Climate Act set a goal of installing six gigawatts (6 GW) of distributed solar energy by 2025. New York achieved the 6 GW solar goal in the fall of 2024, putting the state on the path to other nation-leading climate targets, including 10 GW of solar by 2030.

## Freetown New Energy solar Power Generation Glass 550w

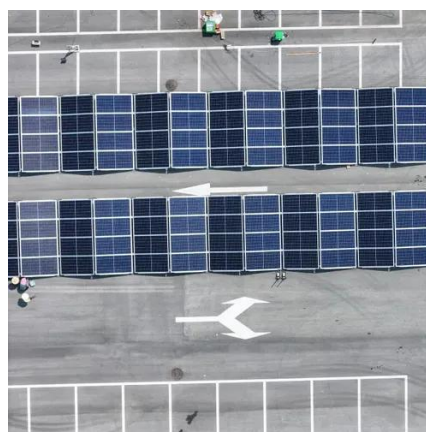

### 550W Double Glass Solar Panel
