Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties. The BESS projects were authorized by the Georgia Public Service Commission (PSC) through.

Georgia Power, the largest electric subsidiary of Southern Company, announced that construction is underway on 765-MW of new battery energy storage systems (BESS) located across Georgia in Bibb, Lowndes, Floyd, and Cherokee counties. The BESS projects were authorized by the Georgia Public Service.

Georgia Power advancing projects in Bibb, Lowndes, Floyd and Cherokee counties to enhance reliability, resiliency for a growing state ATLANTA, May 7, 2025 /PRNewswire/ -- Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS).

Georgia Power announced today that it has started construction on a new 200-megawatt (MW) battery energy storage system (BESS) in Twiggs County, southeast of Macon, Ga. The project was selected through competitive processes resulting from the 2023 Integrated Resource Plan (IRP) Update and was.

Submitted photo Georgia Power hosts company and project leaders, as well as state and local elected officials, for an April 18 groundbreaking ceremony at the Hammond Battery Facility. This 57.5-megawatt battery energy storage system, approved in the 2023 Integrated Resource Plan Update, will store.

In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS. Earlier this month, Georgia Power Company submitted its 2023 Integrated Resource Plan Update (2023 IRP Update)

to the Georgia Public Service Commission, which includes.
