

German three-phase inverter

Overview

The new three-phase hybrid inverter series includes five versions with power ratings of 6 kW to 15 kW. They feature efficiencies of up to 98.2% and a maximum input voltage of 1,000 V. Germany's AEG has launched new three-phase hybrid inverters for applications in high-voltage rooftop.

Three-phase hybrid inverter for up to 100% self-sufficiency at home. Energy generation and management for larger households and commercial PV systems
Free-standing solar inverter for planning decentralized commercial PV systems.
The smart solution for commercial applications. Solar inverter for.

KACO New Energy is known for its pioneering zero-defect philosophy in inverter production, which ensures every product meets the highest quality standards. Because of its commitment to sustainable energy, KACO New Energy became one of the world's first manufacturers to be certified carbon neutral.
