

# Guatemala Vanadium Titanium Flow Battery Company

## Overview

---

What is a vanadium flow battery system?

Vanadium flow battery systems are ideally suited to stabilize isolated microgrids, integrating solar and wind power in a safe, reliable, low-maintenance, and environmentally friendly manner. VRB Energy grid-scale energy storage systems allow for flexible, long-duration energy storage with proven high performance.

What is StorEn vanadium flow battery technology?

StorEn proprietary vanadium flow battery technology is the “Missing Link” in today’s energy markets. As the transition toward energy generation from renewable sources and greater energy efficiency continues, StorEn fulfills the need for efficient, long lasting, environmentally-friendly and cost-effective energy storage.

How long do vanadium flow batteries last?

With regular maintenance, vanadium flow batteries can last over 25 years. StorEn’s Battery Management System signals when maintenance is needed. When replacement is required, the vanadium electrolyte can be reused, minimizing the need for fresh vanadium mining.

How many vanadium flow batteries has ESS Tech installed?

So far, the company has installed over 130 vanadium flow batteries all over the world. It also provides solutions and services, which include turnkey solutions and operation & maintenance services. ESS Tech, Inc.

## Guatemala Vanadium Titanium Flow Battery Company
