Home costs of solar energy systems
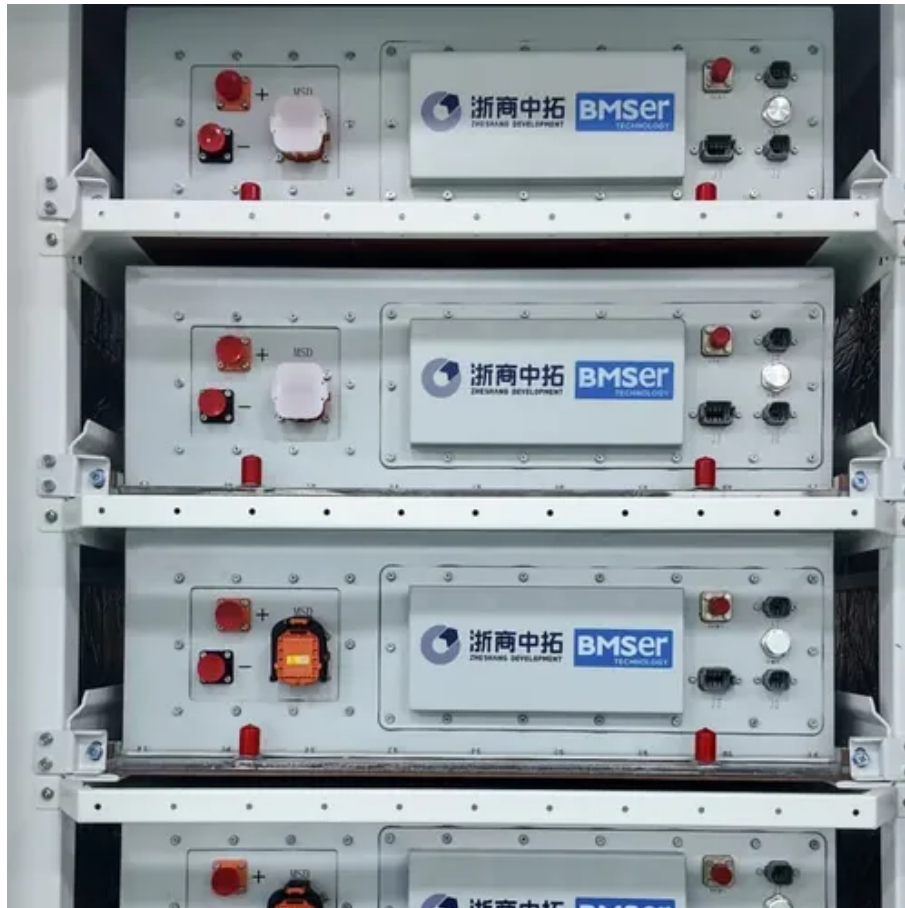

How much does a solar panel cost?

Some municipalities also add special inspection or net metering setup fees. Panel selection creates subtle cost differences. Standard monocrystalline panels in 2025 cost around $0.80–$1.00 per watt, while polycrystalline panels average $0.60–$0.75 per watt.

Do used solar panels cost more than new?

Used solar panels will cost less than new solar panels, however, we wouldn't recommend using them to power your home. Used solar panels likely won't be covered under the manufacturer's warranty, and you'll sacrifice performance. How much do solar panels cost if I get multiple quotes?

.

How much does a commercial solar system cost?

Commercial solar installations are a great way for companies to lower energy costs. Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about $2.00 per watt.
