

Honduras power station generator

Overview

ENEE was created in 1957 by Decree 48, the Ley Constitutiva de la Empresa Nacional de Energía Eléctrica—the Constitutive Law. Its mandate was to promote the country’s electrification through the study, construction and operation of electrification works, government representation in any company in which the government was a shareholder, and to provide assistance to any private generator or distributor that required it.

Further Information
Honduras power sector started a deep restructuring in 1994, as a consequence of a crisis. As a result, a new Electricity Law was elaborated which opened the possibility to generate, transmit and distribute energy, which was being managed exclusively by the state-owned Empresa Nacional de Energia Electrica (ENEE). Another important step was to separ See more on energypedia
