

Ivory Coast solar container outdoor power manufacturer

Overview

This analysis explores how an investor can leverage Ivory Coast's unique economic and geographic position to establish a solar module factory serving not just the local Ivorian market, but the entire ECOWAS region.

This analysis explores how an investor can leverage Ivory Coast's unique economic and geographic position to establish a solar module factory serving not just the local Ivorian market, but the entire ECOWAS region.

AMEA Power, a rapidly expanding renewable energy company in the region, has officially commenced construction on a 50MW solar photovoltaic (PV) project in Ivory Coast. The groundbreaking ceremony, held on 27 February 2025, was attended by Mamadou Sangafowa Coulibaly, Ivory Coast's minister of mines.

Ivory Coast has opened tenders for 200 MW/66 MWh of solar-plus-storage, seeking proposals for two 100 MW solar parks each connected to 33 MWh of storage. Ivory Coast's state-run utility Ci-Energies has launched two tenders for the construction of 100 MW solar power plants, each connected to 33 MWh.

UAE-based renewable energy developer AMEA Power has initiated construction on a 50 MW solar power plant in Gontougo, located in northeastern Ivory Coast. This project signifies AMEA Power's inaugural venture in the country and aligns with Ivory Coast's strategic objective to augment the share of.

The Ivory Coast is set to begin construction of the \$63.5 million Ferke Solar power plant in Sokoro, which will have an installed capacity of 52 MW. Announced by government spokesperson Amadou Coulibaly in April, the project will commence in the second quarter of 2024 and is expected to be.

UAE renewable power developer AMEA Power has started construction at a 50MW solar power plant in Gontougo, in the north-east of the Ivory Coast. The Bondoukou solar plant will be developed by AMEA Goutougo, a locally registered company that is wholly owned by AMEA Power and financed by Dutch.

The Bondoukou Solar PV power plant will generate 85 GWh of clean energy, powering approximately 358,000 households, and will offset more than 52,000 tons of CO2 emissions. The US\$60 million project, once completed, will be AMEA

Power's first operational asset in the Ivory Coast. Bondoukou, Ivory. Which companies are developing solar power plants in Ivory Coast?

The Egyptian company Elsewedy Electric is also among the potential developers of the Laboa and Touba solar plants. The same goes for Infinity Power Holding and Nareva Holding, the subsidiary of the Moroccan group Al Mada. The selected IPPs will build solar power plants capable of delivering 60 MWp to the national grid in Ivory Coast.

What is the Bondoukou solar PV plant?

The Bondoukou Solar PV Plant will generate 85 GWh of clean energy annually, enough to power approximately 358,000 households, while offsetting more than 52,000 tons of CO2 emissions. The project is being implemented by AMEA Goutougo, a project company registered in Ivory Coast and fully owned by AMEA Power.

How much solar energy will Ivory Coast have in 5 years?

"In five years, the share of solar energy will be 9%," stated Prime Minister of Ivory Coast, Robert Beugré Mambé during the power plant inauguration on April 24. Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government.

How much power does the Ivory Coast have?

Its capacity is set to expand to 80 MW by 2025, with financing for the expansion already approved by the government. The Ivory Coast currently has installed power capacity of 2,907 MW, with seven operational hydroelectric dams serving as its primary renewable energy source alongside four existing gas and oil-fired thermal power plants.
