

Large solar glass roof

Overview

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather.

Electrical Work
Theoretically, you might not have to pay to replace your roof before installing a Tesla Solar Roof. Tesla says it will install its solar roofs on top of some single-layer roofs. In most cases, however, you'll need to have your roof removed. In all our Tesla Solar Roof cost calculations in this guide, we've assumed the existing roof is being removed. See more on forbes
