Almost 5 GWh of grid-scale battery energy storage is installed in Great Britain, with over 3 GWh installed in the last two years. 19 different companies have supplied the battery containers for these systems. So, which companies have supplied the most capacity, where are the battery cells for these.

We specialise in containerised solutions for lithium-ion systems – supporting everything from EV (electrical vehicle) infrastructure to renewable energy and industrial power. Built for high-risk environments, our enclosures go beyond standard builds. Each one is precision-engineered with advanced.

TITAN is committed to helping clients capture every last bit of the green energy they create with our new battery energy storage solutions – whether they are creating energy to sell or storing it up for micro-grid/off-grid use. All over the world,

the pace of renewable energy generation is growing.
