In a significant step towards energy transition, Mauritania signed a public-private partnership agreement worth \$300 million on Friday, September 12, in Nouakchott to construct a hybrid power plant that combines solar and wind energy—the first of its kind in the country. According to the.

The signed contract is displayed by (right to left) Economy and Finance Minister Sid'Ahmed Ould Bouh, Energy and Petroleum Minister Mohamed Ould Khaled, and Moulay El Arby, Director of Ewa Green Energy, in the presence of project stakeholders and energy sector officials. Mauritania has signed its.

Mauritania is stepping into a brighter future with its recent 0 million Power Purchase Agreement (PPA) with Ewa Green Energy. This ambitious venture will pave the way for a cutting-edge hybrid power plant that promises to revolutionize the country's energy landscape. Featuring an impressive 160.

Mauritania has taken a new step in its energy strategy, signing two public-private partnership agreements in Nouakchott on Friday, September 12, for the construction and operation of a hybrid solar-wind power plant. The plant, to be developed by Ewa Green Energy at a cost of \$300 million, will have.

Image: The agreement was signed in Nouakchott on Friday, 12 September. Source: Agence Mauritanienne d'Information Mauritania has signed its first public-private partnership (PPP) in the energy sector for the construction of a hybrid solar and wind facility. The government has entered into an.

The Mauritanian government has signed an agreement with renewable energy

company Ewa Green Energy for the construction of a \$300 million hybrid power plant combining solar and wind generation. The facility will have a total capacity of 220 MW, with 160 MW from solar and 60 MW from wind. It will. What does Mauritania's new solar-wind power plant mean for the world?

Mauritania has signed its first independent power producer contract, a \$300 million agreement with Iwa Green Energy to develop a 60-megawatt hybrid solar-wind power plant. The project marks a milestone in the country's drive to expand electricity generation through private financing while accelerating its transition to renewables.

Who is Mauritania's first independent power producer?

Department of Communications and External Relations, media@afdb.org
Mauritania has signed its first independent power producer contract, a \$300 million agreement with Iwa Green Energy to develop a 60-megawatt hybrid solar-wind power plant.

What is Mauritania's new power plant?

The project marks a milestone in the country's drive to expand electricity generation through private financing while accelerating its transition to renewables. The facility, scheduled to come onstream in September 2026, will boost Mauritania's installed capacity of about 450 megawatts.

Can Mauritania accelerate the implementation of IPP projects in the Sahel?

Daniel Schroth, Director of Renewable Energy and Energy Efficiency at the African Development Bank, commended Mauritania for taking this important step in applying the Desert to Power Joint Protocol, illustrating its relevance as a tool for accelerating the implementation of IPP projects in the Sahel.
