

New Zealand Auckland Energy Storage Power Supply Customized Manufacturer

Overview

What is LTDs power quality & energy storage?

LTDS POWER QUALITY AND ENERGY STORAGE RANGE OF PRODUCTS. Be it a small single harmonic filter, factory power factor correction, network utility scale reactive power control system or battery energy storage we have your options covered. The most robust, reliable and efficient products on the market.

What is a battery energy storage system?

A battery energy storage system (BESS) is a technology that allows for the storage of electrical energy in batteries, which can then be used to power electrical loads. BESS can be used for a variety of applications, including grid stabilisation, load shifting, backup power, and integration with renewable energy sources such as solar and wind power.

What does ProTech NZ specialize in?

ProTech NZ specializes in customizing products to your specific requirements, from electronic changes to physical enclosure modification - we will come up with a solution to fit your needs. ProTech is able to repair a wide range of power supplies and battery chargers, up to industrial multi KW units.

Why do you need energy storage systems?

Our energy storage systems are compatible with storing energy from renewable sources, making them an ideal solution if you want to reduce fuel consumption of a diesel generator, add reliability to a hybrid system or microgrid, or to simply optimise your business case through smart energy management - our solutions are at your service!
