

Nuku alofa circulating water pump solar energy

Overview

Does the Lewisa solar fountain pump work on rainy days?

The Lewisa Solar Fountain Pump comes with a battery backup, so it works even on rainy or cloudy days. It's suitable for your koi pond, garden or bird bath. The beautiful LED will make any garden special at night, giving it a beautiful and elegant look. Since it works regardless of the weather, there is no need to worry about the lack of sunshine.

Are solar water pumps submersible or floating?

Depending on your needs, you can look for either submersible pumps or pumps floating on water- however, many of them work very well as both. The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection.

Does a poly solar panel kit have a submersible well pump?

The Poly Solar Panel Kit has a 12 V submersible well pump. It's ideal for bigger applications, such as farms, irrigation or camping sites. The pump benefits from the highest engineering design, since it can be submersed up until 30 meters underwater without any problem.

What is a coscci solar fountain pump?

The Coscci solar fountain pump is ideal for any small pond, fish tank and birdbath. Its modern design fits those who want a special, stylish look for their gardens. It has a long service life and it's very easy to start-just place it under full sunlight and it turns on automatically in 3 seconds!
