

Off-grid solar container 15kW discount

Overview

What is a 20kW off-grid Solar System?

A 20kW off-grid solar system comes with many great features and specifications. You can see all these specifications below. A hybrid solar system is a combination of both on-grid (with net-metering) and off-grid (with battery) solar systems. This 20kW solar system can work with or without a government grid.

How does an off-grid 15kW solar system work?

In an off-grid 15kW solar system there are two ways to run your electrical load, first is solar power and second is batteries. Solar batteries are such a component that you do not get in an on-grid solar system but are definitely available in an off grid system. Solar panels generate DC electricity by absorbing sunlight.

How much does a 15 kW solar kit cost?

Buy the lowest cost 15 kW solar kit priced from \$1.13 to \$2.00 per watt with the latest, most powerful solar panels, module optimizers, or micro-inverters. For home or business, save 26% with a solar tax credit. Click on a solar kit below to review parts list and options for battery storage, EV charging and installation.

What is a 15kW solar system?

Generating approximately 1,400 to 3,000 kWh of energy each month, 15kW solar systems are perfect for homeowners with larger homes and higher electricity needs. Select from an array of 15kW solar systems, including grid-tie with or without batteries and off-grid options. Or reach out to our experts for a custom solar system! Shop What's in a kit?
