Stealth Power provides fleet electrification and off grid solar solutions for customers of all kinds. They have explored and implemented solar options for a wide variety of applications and we have found their solar options for shipping containers to be the best in the business. Many customers.

MOBIPOWER containers are purpose-built for projects where energy demands go beyond what a trailer can deliver. These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells — with optional diesel redundancy when regulatory or client.

Absolutely – with modern off-grid systems, it's surprisingly straightforward.

Shipping containers are often used as remote offices, workshops or data shelters on construction sites, farms, and emergency zones. When the grid is hundreds of feet away (or non-existent), a self-contained power solution.
