

Outdoor integrated solar container system

Overview

It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control system, fire control system, temperature control system and monitoring system. The synergy of the system components can achieve effective charging and discharging.

LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar.

RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.

Off-grid solar storage systems are leading this shift, delivering reliable and clean power to locations worldwide. Among the most scalable and innovative solutions are containerized solar battery storage units, which integrate power generation, storage, and management into a single, ready-to-deploy.

Standard container dimensions enable rapid transport via ship, train, or truck to any global location, perfect for remote operations and emergency response. Deploy in under 6 hours with automated unfolding system, minimizing downtime and maximizing productivity at your site. No specialized tools.

Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. The Off Grid Container also.

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring

battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The 20FT.
