

Price per panel on solar BESS roof

Overview

The average price of a residential solar roof system is between \$4.50 and \$8.00 per installed watt, making the average 5 kilowatts (kW) system cost between \$22,500 and \$40,000 before taxes (1 kW = 1,000 watts). A 5 kW system is usually enough to power a regular-sized home.

The average price of a residential solar roof system is between \$4.50 and \$8.00 per installed watt, making the average 5 kilowatts (kW) system cost between \$22,500 and \$40,000 before taxes (1 kW = 1,000 watts). A 5 kW system is usually enough to power a regular-sized home.

NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. This work has grown to include cost models for solar-plus-storage systems. NLR's PV cost benchmarking work uses a bottom-up.

Solar panel costs range from \$16,600 to \$20,500 for the average 6.5 kW system, but prices can vary from as little as \$7,700 for smaller solar systems to upward of \$34,700 for larger systems. To find the most up-to-date solar panel costs in 2025, we compared research from the U.S. Department of.

Installing solar panels can be one of the most impactful improvements you can make - allowing you to take control of electricity bills, protect your home from outages and increase the value of your property while producing energy directly on the roof. How much does it cost to install and manage.

The average cost of solar roof system is \$49,700, but the cost typically varies from \$40,000 and \$60,000. Solar roofs are becoming increasingly popular as solar system costs continue to drop. In 2025, the national average cost of a solar roof system is around \$49,700, including materials and labor.

Our estimator shows how many solar panels your home needs. We generate an online cost and savings estimate. You choose how many solar companies send you an exact price by email or text. Click on your state for solar panels cost localized to your city or use the solar calculator above to see the live.

Solar panel installation costs a national average of \$18,180 for a 6kW solar panel

system for a 1,500 square ft. home. The price per watt for solar panels can range from \$2.50 to \$3.50 and largely depends on the home's geographical area. Residential solar panels are usually sized between 3 kW and 8.
