

Riyadh is a communications company that provides 5g base stations

Overview

How many cities in Saudi Arabia have 5G service?

More than 35% of the population in 5 major cities in Saudi Arabia, including Riyadh, Jeddah, Makkah, Madinah, and Dammam, were provided with 5G service by stc group in 2019. The 5G service was extended to 75 cities nationwide the following year.

Is 5G a catalyst for Saudi Arabia's smart city initiatives?

Undoubtedly, 5G technology is an important catalyst in Saudi Arabia's smart city initiatives, providing cutting-edge connectivity for new cities like NEOM and Qiddiya and existing conurbations such as Riyadh and Makkah.

Why is Saudi Arabia leading in 5G?

Technology futurist Khan said that Saudi Arabia's leadership in 5G didn't happen by accident and is the result of strategic planning. "The Kingdom invested heavily in telecom infrastructure, spending an estimated \$1.5 billion by 2022, which aligns with our Vision 2030 goals to diversify the economy through digital transformation," Khan said.

When did the 5G network start in the MENA region?

In 2018, stc group launched the 5G network, marking a significant milestone that initiated a historic transformation in communications and information technology in the Kingdom and the region. The MENA region's development standards differed from the rest, making it the first commercial launch of the 5G network.
