

# Saint Lucia Mobile Base Station Battery

## Overview

---

Saint Lucia is an island in the eastern Caribbean. Part of the Windward Islands, it is located north/northeast of the island of Saint Vincent, northwest of Saint Martin and south of Saint Vincent. It covers a land area of 617 km<sup>2</sup> (238 square miles) with an officially estimated population of over 184,100 people as of mid 2023. The nation's capital and largest city is Castries.

What is the main source of electricity in Saint Lucia?

The main source of electricity in Saint Lucia is oil through its sole power station, the Cul De Sac Power Station, although solar energy is also a major source. There have also been attempts to introduce geothermal and wind energy to the island. [citation needed] A census is normally held in Saint Lucia every 10 years.

Does Saint Lucia have a bus network?

Saint Lucia has a wide-ranging public bus network which covers most of the island. Buses are owned by private individuals, whilst the government is responsible for setting up routes and hubs. The road network covers most of the island, although some rural areas still lack access to proper roads.

What currency does Saint Lucia use?

Saint Lucia's currency is the Eastern Caribbean Dollar (EC\$), a regional currency shared among members of the Eastern Caribbean Currency Union (ECCU). The country's main trade partners are the US, UK, EU and other CARICOM countries. Tourism is the largest contributor to Saint Lucia's economy.

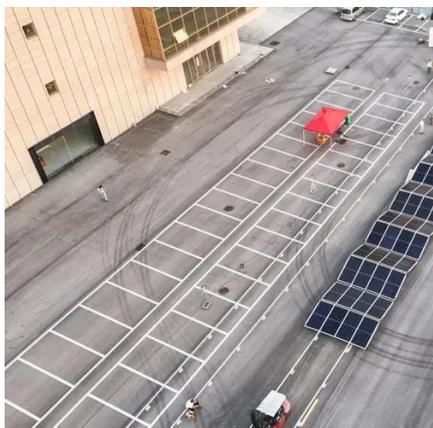

Is Saint Lucia a volcanic island?

As a volcanic island, Saint Lucia is very mountainous, with its highest point being Mount Gimie, at 950 metres (3,120 feet) above sea level. The Pitons, two mountainous volcanic plugs, form the island's most famous landmark. Saint Lucia is also home to the world's only drive-in volcano, the Sulphur Springs.
