Although our Modular Solar Panels – Solar Tile may appear smaller in size compared to conventional solar panels, they serve the same purpose. The only variation lies in the fact that our specially designed Modular Solar Panels can be customized into different sizes and shapes to cater to your.

The CertainTeed Apollo II solar shingles have 14 monocrystalline cells with a total power of 70 W, and they are designed for asphalt shingle roofs. On the other hand, the Apollo Tile II is designed for tile roofs, also having 14 mono cells and a rated power of 70 W. If you prefer traditional solar.

Performance Matches Traditional Panels: Modern solar roof tiles achieve 17-23%

efficiency ratings and generate 12.8-16.1 watts per square foot, making them increasingly competitive with conventional solar installations while providing superior aesthetics and seamless architectural integration.
