

Solar glass industry concentration

Overview

By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030. By manufacturing process, float lines delivered 68% of 2024 volume; rolled glass is forecast to.

By glass type, anti-reflective coatings led with a 57% solar photovoltaic glass market share in 2024, while TCO glass is projected to expand at 22.46% CAGR through 2030. By manufacturing process, float lines delivered 68% of 2024 volume; rolled glass is forecast to.

The size of the Solar Photovoltaic Glass Industry market was valued at USD 14.6 Million in 2023 and is projected to reach USD 68.3 Million by 2032, with an expected CAGR of 18.42% during the forecast period. This growth is driven by the increasing demand for renewable energy, government initiatives.

Global solar glass market size was forecasted to be worth USD 7.83 billion in 2024, expected to achieve USD 24.1 billion by 2033 with a CAGR of 13.3% during the forecast period. I need the full data tables, segment breakdown, and competitive landscape for detailed regional analysis and revenue.

The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030. This sustained expansion reflects policy-driven installation targets, rapid cost deflation across the module supply.

It has led to increased investments in solar power projects worldwide, raising the demand for solar PV glass. The growth of solar installations, large-scale utility projects, and residential rooftop systems is contributing to the expansion of the market. To learn more about this report, [Download](#).

The Solar Photovoltaic Glass Market size was valued at USD 28.90 Billion in 2024 and the total Solar Photovoltaic Glass revenue is expected to grow at a CAGR of 29.34% from 2025 to 2032, reaching nearly USD 226.39 Billion. The global volume of Solar Photovoltaic Glass Market is expected to grow.

The global solar PV glass market was valued at USD 53.5 billion in 2024 and is

estimated to grow at a CAGR of 7.9% from 2025 to 2034. The demand for solar PV glass is directly impacted by the notable increase in solar installations brought about by the global push for renewable energy sources.
