The Q-Sun Solar Mercury Series represents the latest advancement in photovoltaic technology with our N-type Topcon PV modules. This series offers power outputs ranging from 400W to 720W, with efficiency levels between 22.5% and 23%. The Mercury Series is available in three categories: mono-facial.

With the N-type HJT 2.0 technology, BiMAX6N module combines the gettering process with single-side  $\mu$ -Si technology to deliver superior efficiency (up to 23.02%) and unrivaled power output (695W-715W). This innovative combination shortens current pathways within the module, minimizes electrical.

●The 710W solar panel is a high power module that uses the latest half-cut technology to make each cell a complete cut, avoiding hidden cracks. The half-cell design reduces operating current and hot spot temperature, ensuring high module power. 12BB's multi-gate design allows the module to collect.
