Scroll to the bottom of any page to find a sun or moon icon to turn dark mode on or off! So I'm getting ready to install panels onto my sheds asphalt shingles and as I'm up there doing my calculations I've noticed my neighbours bambo and ADU shade more than I originally thought. It's only allowing.

Solar panels are typically installed within the boundaries of the roof to ensure they are securely anchored and to maintain the structural integrity of both the panels and the roof.
