

South Korea Energy Storage Project 2025

Overview

South Korea launched the 2025 1st ESS Central Contract Market auction, offering 540 MW of capacity for energy storage projects across the mainland and Jeju.

South Korea launched the 2025 1st ESS Central Contract Market auction, offering 540 MW of capacity for energy storage projects across the mainland and Jeju.

South Korea's trade ministry announced Thursday it will invite bids from private companies to build and operate a large energy storage system (ESS) totaling 540 megawatts (MW) — enough to power about 1 million apartments for an hour. The project aims to help reduce electricity waste from renewable.

South Korea launched the 2025 1st ESS Central Contract Market auction, offering 540 MW of capacity for energy storage projects across the mainland and Jeju. This round expands coverage beyond Jeju, introducing refined procedures and stricter technical and operational standards based on lessons from.

SEOUL, May 26 (AJP) - South Korea has launched its most ambitious energy storage initiative yet, opening the door to what officials estimate could become a \$29 billion market by 2038 — offering a much-needed boost to domestic battery manufacturers grappling with a global slowdown in electric.
