

# Thailand Solar Base Station solar container power supply system

## Overview

---

The solar storage and charging intelligent power station adopts a 40ft BESS container solution. The PCS power of the energy storage part reaches 250kW, using a 50kW MPPT module. The LFP battery capacity is 230kWh and consists of three battery cabinets.

Solar electric systems have become more popular in Thailand over the last decade, with more and more supply houses and installation companies establishing themselves all over the country. By the end of this guide, you'll find out the benefits of installing a solar electric system, how to apply for.

According to Mr Techatat Buranaaudsawakul, Chairman of the Electrical Engineering Department at the Engineering Institute of Thailand (EIT), rooftop solar should be treated as part of a home's critical electrical infrastructure, not simply an add-on appliance. "Safety is a top priority for rooftop.
