

# The largest company in solar energy storage

## Overview

---

Acquired by Sunrun in 2020 for US\$3.2bn, Vivint Solar entered the home energy storage market in 2017 with a partnership with Mercedes-Benz Energy followed by another partnership with LG Chem. Known for its residential solar installations, Vivint has emerged as a notable player in.

Acquired by Sunrun in 2020 for US\$3.2bn, Vivint Solar entered the home energy storage market in 2017 with a partnership with Mercedes-Benz Energy followed by another partnership with LG Chem. Known for its residential solar installations, Vivint has emerged as a notable player in.

Including Tesla, GE and Enphase, this week's Top 10 runs through the leading energy storage companies around the world that are revolutionising the space. Whether it be energy that powers smartphones or even fuelling entire cities, energy storage solutions support infrastructure that acts as a.

Technology Integration Driving Value: The most valuable companies are those combining multiple technologies and services – from Sungrow's integration of solar inverters with energy storage to GE Vernova's comprehensive energy equipment portfolio. Pure-play single-technology companies face.

In June 2025, CATL unveiled its next-generation high-capacity energy storage battery cell—a 587 Ah cell engineered specifically for utility-scale applications. With an energy density of 434 Wh/L, this new cell marks a 10% improvement and can boost overall energy storage system density by up to 25%.

The International Energy Agency (IEA) says batteries will make up 90% of the sixfold increase in global energy storage capacity through 2030, while 1,500GW is estimated to be available by the end of the decade. This growth is led by falling costs, innovations in technology, and favorable policies. What are the top 10 energy storage manufacturers in the world?

This article will mainly explore the top 10 energy storage manufacturers in the world including BYD, Tesla, Fluence, LG energy solution, CATL, SAFT, Invinity Energy Systems, Wartsila, NHOA energy, CSIQ. In recent years, the global energy storage market has shown rapid growth.

What are the world's largest battery storage projects?

The Hornsdale Power Reserve and the Victorian Big Battery are two of the largest battery storage projects in the world and were built by the French company Neoen, an independent renewable energy producer. Such projects demonstrate the promise of grid services offered by large storage solutions such as energy arbitrage and frequency control. 9.

Which solar company has the largest return?

Among those listed on the Nasdaq or New York Stock Exchange, the U.S.-based NextEra Energy is currently the largest solar company in the world by market cap. Which Solar Company Has Produced the Largest Return?

Out of the top 10 solar companies in our list, First Solar has the highest five-year return as of June 2025 at 202.04%. 6.

Which solar companies have a market cap of 900 million?

All of the companies in our top 10 list have a market cap of at least \$900 million. The top solar company is NextEra Energy. Investopedia requires writers to use primary sources to support their work. These include white papers, government data, original reporting, and interviews with industry experts.
