

The latest ranking of energy storage batteries

Overview

Chinese energy storage battery companies performed exceptionally well, achieving record-breaking global shipments. CATL maintained its leading position for consecutive years, while other companies such as EVE Energy, HiTHIUM, BYD, and AESC followed closely.

Chinese energy storage battery companies performed exceptionally well, achieving record-breaking global shipments. CATL maintained its leading position for consecutive years, while other companies such as EVE Energy, HiTHIUM, BYD, and AESC followed closely.

In 2024, the global energy storage market continued its rapid growth, bolstered by policy support and increasing market demand. According to SMM statistics, global shipments of energy storage battery cells saw significant year-on-year growth, reaching 334 GWh for the year. Among these, lithium iron.

The top 10 global energy storage battery cells shipments include well-known companies such as CATL, CATL, BYD, and EVE. Through continuous innovation and technological breakthroughs, they have become a leader in the energy storage battery industry and have made important contributions to the.

S&P Global has released its latest Battery Energy Storage System (BESS) Integrator Rankings report, using data for installed and contracted projects as of 31 July, 2024, showing the top five globally remains the same as last year's ranking but with a shift in the order. China-based Sungrow tops the.
