Tunisia's Push for Renewable Energy: Progress and Tunisia faces several challenges that could hinder its progress: Infrastructure Gaps: Developing and modernizing energy infrastructure requires significant investment. Transmission networks and storage solutions must be Tunisia seeks consultants for.

To address these challenges, Tunisia has set ambitious targets : Reducing carbon intensity by 45% by 2030 and increasing renewable energy's (RE) share to 35% of electricity production. From 2013 to 2015, major reforms have strengthened the regulatory framework, with the creation of the Energy.

TUNIS, November 11, 2025 — The World Bank and the Government of Tunisia have concluded a financing agreement to support Tunisia's energy sector modernization agenda through the Tunisia Energy Reliability, Efficiency, and Governance Improvement Program (TEREG). This five-year program of US\$430.

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shabb, has approved four solar projects with a combined capacity of 500 MW Battery Energy Storage System (BESS). France-based Qair International will build a 100 MW facility in the Kasr region of Gafsa province and a 200 MW project.

JC Power, a Chinese company specializing in energy-storage systems, plans to build a lithium-battery plant for electric vehicles in Tunisia in partnership with Hyacinth Automotive, the local distributor of Cenntro, Avantier, and RapSev. The announcement followed a meeting last week between a YJC.

is is a setback for efforts to tackle climate change. In fact, it can be a turning point

towards a cleaner and more secure energy system, thanks to the unprecedented response from governments around the world, as registered by the IEA in the Stated Policies Scenario (SPS), the Announced Pledges.

Tunisia plans to invest in energy storage power station project

Tunisia

The project, estimated to cost \$932 million, consists of the construction of a 600 MW high-voltage direct current cable that will link the grids of Tunisia and Italy and enable ...
