Phoenix Contact 2320267 An uninterruptible power supply unit (UPS) featuring IQ Technology and an integrated battery is available for DIN rail mounting. The device accepts a 24V DC input and provides a 24V DC output of up to 10A, along with a lead AGM 4Ah battery included in the package that also.

Most people can get through a household power outage without much hassle. Chances are, by the time you find the spare flashlight batteries and break out the board games, your lights and television will already be back on. But if you want to keep your home Wi-Fi network and some other key.

Uninterruptible power supplies (UPS) are essential to ensure you have continuous power during a power outage. From a small UPS to save and shut down your PC, to large commercial systems that power large data centers or critical systems in hospitals, we have the solutions you and your customers.
