From design and consenting to supply, installation, and ongoing maintenance, Solar Hub NZ delivers seamless Wellington solar solutions under one roof. We partner with Panasonic Sunvolt Technology to bring you Tier 1 solar panels and inverters renowned for performance and longevity, so your system.

Rooftop solar is the most common option for on-site solar installations. Ground-mounted solar lets you install solar on-site without attaching the panels to your roof. Some models can also move with the sun to harness even more energy. Community solar lets you get solar power from an off-site.

New York State is making solar energy more accessible to homes, businesses, and communities through NY-Sun incentives and a network of qualified installers. Combined with declining equipment costs, New York State tax credits, and Inflation Reduction Act tax credits for commercial solar, going solar.

Installing solar panels can be a more cost-effective and sustainable way to provide electricity for your home. Solar panels use the power of the sun to generate electricity for your home. Panels can be placed on a roof or on the ground. Any extra electricity you generate during the day and don't.
