

# Where is the new power signal base station in Angola

## Overview

---

The new ground station, located in the Luanda-Bengo Special Economic Zone, will act as a crucial satellite network portal, linking OneWeb's low Earth orbit (LEO) satellite constellation to terrestrial infrastructure in the region.

The new ground station, located in the Luanda-Bengo Special Economic Zone, will act as a crucial satellite network portal, linking OneWeb's low Earth orbit (LEO) satellite constellation to terrestrial infrastructure in the region.

French satellite operator Eutelsat, through its subsidiary OneWeb, has inaugurated a new ground station in Luanda-Bengo, Angola, as part of a long-term push to expand satellite connectivity across Africa. The announcement was made on Thursday, June 13, and marks the culmination of a four-year.

The newly launched ground station brings Eutelsat's low Earth orbit (LEO) network online in Angola and across Central Africa, delivering fast, resilient connectivity to underserved and remote communities. Eutelsat Group has officially inaugurated its Eutelsat OneWeb Earth Station in Luanda, marking.

Eutelsat Group has officially inaugurated its state-of-the-art Earth station at the Luanda-Bengo Special Economic Zone (ZEE), marking a major milestone in Angola's telecommunications and digital transformation journey. Developed through a strategic partnership between OneWeb Angola and Eutelsat.

A new satellite Earth station at the Luanda-Bengo Special Economic Zone (ZEE) in Angola has been inaugurated by Eutelsat Group. Eutelsat has a lasting reputation in Angola as a provider of geostationary satellite communications services, and seeks to expand its investment in the country. The.

Eutelsat, through its subsidiary OneWeb, has announced the inauguration of its ultra-modern ground station in Luanda-Bengo, Angola. The result of a partnership between OneWeb Angola and the Angolan Communications Authority (INACOM), this facility represents a vital bridge between the low-Earth.

On Thursday, Eutelsat Group, through its subsidiary OneWeb, officially launched its first low-Earth-orbit (LEO) satellite ground station in Luanda-Bengo, Angola. This new facility is key to expanding satellite internet coverage across Central Africa.

The ground station will connect LEO satellites.
