Over the past few years, I've tested over 100 different power stations from companies like Jackery, EcoFlow, Bluetti, and even DJI to find out which ones truly stand out. My top pick continues to be the Jackery Solar Generator Kit.

Portable power stations can deliver power when you need it most, whether during power outages or just for an off-grid adventure. These handy electricity suppliers vary in size, output, and energy source, not to mention durability. That's why we've tested 22 models since 2022; some we've kept on.

This portable power station is on the heavier side, but it has great battery life and output, it's ruggedly built, and it has a wide variety of charging ports. If you want even more power, outlets, and charging ports, and you don't mind a heavier (and typically pricier) unit, get the EcoFlow Delta.

Whether you live in an area prone to power outages or want to take a way to power up with you on the road or camping, a portable power station can be an excellent investment, especially in the dark and cold winter months. These are a highly affordable alternative for a backup generator, and now is.

We tested out over 40 compact power stations to find out which ones will keep you connected off the grid. When you purchase through links on our site, we may earn an affiliate commission. Here's how it works. The best portable power station keeps you up and running whether you need a power supply.

Job sites, camping, and emergencies all require different levels of power, so I recommend choosing a portable power station with a high enough peak output to handle your most power-hungry appliance, device, or tool, and then going all-in on battery capacity. Small power bricks have enough juice to.

Going off the grid or need power in a pinch during a power outage?
