High degree of system integration, integrated battery management system, PCS, temperature control system, fire control system, 2. Customizable design to meet different customer needs. 3. Third-level BMS system architecture, safe and reliable. 4. The charging mode includes pre-charging.

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary equipment in a single container or separated based upon site conditions. We provide customers with industry.

This is the product of combining collapsible solar panels with a reinforced shipping

container to provide a mobile solar power system for off-grid or remote locations. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation. Folding.
