

Which single glass solar curtain wall manufacturer is the best in Ireland

Overview

Our curtain walls are tested to CWCT standards, self drained, suitable for high rise buildings, and incorporate a high-performance thermal break. Our systems are designed to allow specifiers flexibility, cost efficiency and easy of fabrication.

Our curtain walls are tested to CWCT standards, self drained, suitable for high rise buildings, and incorporate a high-performance thermal break. Our systems are designed to allow specifiers flexibility, cost efficiency and easy of fabrication.

The Pilkington Suncool™ range combines in one coating efficient thermal properties with some of the lowest Ug values achievable in insulating glass units and a broad range of solar-control options. With so much glass being used in a curtain wall the solar-gain can be high unless it is controlled.

Our Glass ACW curtain walling systems can replace solid walls to provide a spectacular space and created with aesthetics in mind. Our curtain walls are tested to CWCT standards, self drained, suitable for high rise buildings, and incorporate a high-performance thermal break. Our systems are.
