

# Wholesale 240v power station in Angola

## Overview

---

What is the electrical system in Angola?

Angola's electrical network is divided into six independent electrical regions (north, central, south, Cabinda, the east and isolated systems) but only the north and central grids are connected, while the connection of the central to the south is underway.

How much does Angola spend on electricity?

The portion of the Angolan government budget dedicated to the electricity production, transmission and distribution sectors increased to US\$ 817.2 million in 2023 from US\$490 million in 2022. Angola's national budget for electricity assessment allocated is around US\$ 249.4 million.

What type of transmission system does Angola have?

Angola's transmission infrastructure is made up of three separate major grid systems (northern, central, and southern), in addition to isolated grids in the east. The northern grid runs 400kv and 220 kv lines, and covers Luanda, Uige, Bengo, Zaire, Malange, Kwanza Norte, and Kwanza Sul provinces.
