

### SYSTEM SERIES DIAGRAM

The diagram illustrates the system architecture for a CANbus Type B setup. Key components and their connections include:

- AC Supply:** Includes a Grid or Generator, a No Load Switch, and a Breaker. It is connected to the AC Distribution unit.
- Color Control EX:** A control unit connected to the VE Bus and the CANbus Type B Cable.
- VE Bus:** A central bus connecting the Color Control EX, the CANbus Type B Cable, and the MPPT.
- CANbus Type B Cable:** Connects the Color Control EX to the CANbus Terminator and the Ethernet network.
- CANbus Terminator:** A device connected to the CANbus Type B Cable and the Ethernet network.
- Ethernet:** Connects the CANbus Terminator to the Internet.
- MPPT (Maximum Power Point Tracking):** A blue unit connected to the PV Array and the DC Distribution unit.
- PV Array:** A solar panel array connected to the MPPT.
- AC Distribution:** A unit that receives power from the AC Supply and distributes it to the AC Distribution unit.
- DC Distribution:** A unit that receives power from the MPPT and distributes it to the 48V Pyrotech Battery Modules.
- 48V Pyrotech Battery Modules:** Two large battery units connected to the DC Distribution unit.

The diagram also shows various safety and grounding connections, including a ground symbol and a warning symbol.
