What are circuit breakers?

Circuit breakers are essential safety devices that automatically interrupt the flow of electricity in case of overload or short circuit, preventing damage to equipment and potential fire hazards. Here's a breakdown of the different types we offer: Ideal for protecting individual circuits in residential and commercial buildings.

What is RCCB & MCB?

They are particularly crucial in areas with high moisture or potential grounding issues. RCCBs are often used in conjunction with MCBs for comprehensive protection. Primarily used for isolation purposes, allowing safe maintenance and repair work on electrical equipment by completely disconnecting the circuit from the power source.
